

You Can Be A Watershed Citizen

1

Learn About Your Watershed

- Find out what watershed you live in
- Learn about the health of your waterway, is it polluted
- What animal and plant life do you see?
- Test the water quality!

2

Restore Your Waterway

- Read the Citizen Action Guide for detailed steps
- Do a litter clean up
- Plant trees and shrubs along stream bank
- Reach out to local nonprofit or govt for help and assistance

3

Improve Your Watershed

- Establish a rain garden in your yard
- Use a rain barrel to collect runoff from your roof
- Avoid using pesticides or fertilizers on your lawn or garden
- Get your neighbors involved in protecting your waterways

A Healthy Watershed
Begins With Us
