Pollinator Garden at Stratford STEM Magnet High School -- East Nashville
How to create pollinator garden at your school.

Tennessee Environmental Council (TEC) is ready to help you in the following ways:

1. presenting to your students, faculty, and administration about this program,
2. finding the right location and designing a pollinator garden,
3. seeking additional funds for establishing the garden,
4. connecting you with corporate and local volunteers,
5. organizing planting and maintenance events.

What you need to do:

1. form an interest group in your school, including the principal, science teacher or PTO, and students,
2. contact Monika G. Pretz at monika@tectn.org
