

For our September 2018 *Council Action of the Month*, we want you to start composting and join our [Come, Post Your Compost](#) campaign!

Did you know that food waste represents the single largest material in our landfills and that valuable material can be turned into black gold right in your very own backyard?

*Come, Post Your Compost* is designed to help Tennesseans keep tons of food and yard waste out of our landfills and put back into our community's hands and gardens. With this campaign, we hope to engage 1,000 Tennessee residents, throughout all 95 counties, in diverting 60 tons of food and yard waste from TN's landfills by December 2019. We need you to get involved!

We'll help you get started by letting you know the what, why and how of composting. We also will reward participants at random and hold inter-county compost competitions that will allow residents who excel at composting (we're calling them our ScrapMasters) to win additional prizes. So, you can win prizes just for composting!

[WATCH OUR VIDEO](#) about the campaign. [Visit this link](#) to learn more about our campaign and to sign up!

Come on y'all, come, post your compost, it's our September 2018 *Action of the Month!*
